

## **Building 1**

Spider sweep of exterior perimeter windows and doors entryway areas and light fixtures. No issues around the Insect Monitoring Traps. No need to replace them today.

With the exterior bait boxes I:

- Took before and after photos
- Cleaned out bait boxes as much as possible
- Locked and ensure bait boxes were secure
- Relabeled every single bait station

Bait box #1 - 2 blocks replaced

Bait box #3 - 2 blocks replaced

Bait box #4 - 2 blocks replaced

Bait box #5 - 2 blocks replaced

Bait box #6 - 2 blocks replaced

Next service: Refresh rodent stations. Check monitoring traps.

## **Building 2**

Spider sweep of exterior perimeter windows and doors entryway areas and light fixtures. No issues around the Insect Monitoring Traps besides the light trap in the storage room. No need to replace the others today. I treated the drains in the deli with Hotspot, and the base of the trash cans with Temprid.

With the exterior bait boxes I:

- Took before and after photos
- Cleaned out bait boxes as much as possible
- Locked and ensure bait boxes were secure
- Relabeled every single bait station

Bait box #1 - 4 blocks replaced

Bait box #2 - 2 blocks replaced

Bait box #7 - 2 blocks replaced

Bait box #8 - 2 blocks replaced

Bait box #9 - 4 blocks replaced

Next service: Replace sticky traps, if needed. Monitor light traps. Refresh rodent stations.

## **Building 3**

Treated the drains in the deli with Hotspot. Spider sweep of exterior perimeter windows and doors, entryway areas, and light fixtures. Also hit hallway to 999 building which had a lot of spiders and Egg sacks

With the exterior bait boxes I:

- Took before and after photos
- Cleaned out bait boxes as much as possible

- Locked and ensure bait boxes were secure
- Relabeled every single bait station

Bait box #1 - 2 blocks replaced  
Bait box #2 - 2 blocks replaced  
Bait box #3 - 2 blocks replaced  
Bait box #4 - 2 blocks replaced  
Bait box #5 - 4 blocks replaced  
Bait box #6 - 2 blocks replaced  
Bait box #7 - 2 blocks replaced  
Bait box #8 - 4 blocks replaced  
Bait box #9 - 2 blocks replaced  
Bait box #10 - 2 blocks replaced  
Bait box #11 - 2 blocks replaced

Next service: Replace sticky traps, if needed. Refresh rodent stations. Check rodent traps for activity.

### **Building 5**

I treated the sinks and drains in the downstairs bathrooms by the deli using Hot Spot. I also treated the exterior of the gym area with Temprid.

With the bait boxes:

- Made sure each station is labeled and locked
- Ensure each bait station has enough bait to last until next visit
- Removed spider webs and leaves where necessary

Next Service: Refresh rodent stations. Check interior for activity

### **Building 6**

Checked fly light in the deli, only a couple of flies on there, no need to replace. Glue boards were clean save for one fly on one. No other issues reported or seen.

Next Service: Refresh rodent stations. Check interior for activity

### **Building 7**

Checked fly light in the fire access room, nothing on the fly light. No issues on other traps inside the building either.

Next service: Check and replace traps, if needed.

### **Building 8**

Checked IMTs in both kitchen areas, no issues on them. No signs of activity in the broom closet downstairs either.

Next service: check and replace monitoring traps, if needed.

### **Building 9**

Checked IMTs, no issues and no need to replace at this time. No issues reported at this time.

Next service: check and replace monitoring traps, if needed.

### **Building 10**

The two IMT traps in the kitchen by the back door were in need of replacing. Replaced. No signs of issues or entry points.

Next Service: Check monitoring traps.

### **Trading Center**

No issues around the Insect Monitoring Traps. No need to replace them today.

With the exterior bait boxes I:

- Took before and after photos -

Cleaned out bait boxes as much as possible -

Locked and ensure bait boxes were secure

- Ensure every single bait station is labeled

Bait box #2 - 2 blocks replaced

Bait box #8 - 2 blocks replaced

Bait box #9 - 2 blocks replaced

Bait box #10 - 6 blocks replaced

Next service: Refresh rodent stations. Check monitoring stations. Spray exterior.

### **LP1 - Costco Travel**

Checked the insect monitoring trap, replaced it. Some accumulative insects on there. No sign of infestation.

Bait Stations:

- Bait Box #6 Replaced 80g

- Bait Box #8 Replaced 40g

- Bait Box #3 Replaced 40g

- Bait Box #5 Replaced 40g

- Bait Box #2 Replaced 80g

## **LP2 - Costco Travel**

Checked the insect monitoring traps, replaced them where necessary. Significant reduction in ants around the deli, especially the kitchen and grab/go cooler, none seen or reported today!  
Treated wasp nest near the back smokers area with Spectracide.

### **Bait Stations:**

- Box #7 20g replaced
- Box #2 40g replaced
- Box #8 20g replaced
- Box #11 40g replaced
- Box #12 40g replaced
